

310 –Market Research & Positioning Training for Small Business

Onsite – 3 Days, 8 Hours/day – Optimum class size, 8 - 9 students

Training Description:

Trainees will be educated to cutting edge market research and business planning best practices, resources and tools can leverage and begin utilizing right away. By the end of this workshop an employee should have a firm understanding of market research and business planning fundamentals and also be able to build out their own research and planning deliverables when back at Corporate Headquarters. This workshop is designed to help a senior management team understand the fundamentals of proper planning and research that underpin some of the world's most well-loved organizations.

Skill Attainment:

The workshop will provide the knowledge needed to develop a market research and positioning report that a Firm can use as the early foundation needed before developing a formal Marketing Strategy. Specific skills include:

- Outline a market research report, develop positioning for specific client segments, and understand their Firm's strengths and weaknesses
- Assess the opportunities at hand for new markets and industries
- Create a communication vehicle to present to various internal and external groups to communicate a common vision and set common goals.
- Develop clear timing and budget as well as anticipated results.
- Understand the research and planning tools available to leverage
